Dear Mr. Vogt:

The South Dakota Department of Game, Fish and Parks is planning to install a single concrete vault toilet at Lewis and Clark Recreation Area. The toilet would be located in the Yankton Unit of the campground. The proposed work would include the excavation of one 10 foot x 10 foot hole to a depth of 5 feet. The project location is in Section 24, T93N, R57W Yankton County, South Dakota (enclosure).

A February 2005 cultural resources file search revealed one recorded site within the section. However, site 39YK207 has been destroyed.

The U.S. Army Corps of Engineers, Omaha District (Corps) received a letter from the Northern Cheyenne Tribe, requesting notification if any affiliated sites are uncovered during the construction. No other tribes or parties have expressed an interest in consulting on this project. The Corps asks for your concurrence in a determination of **No Historic Properties Subject to Effect** for this project. If you have any questions or comments, please contact Ms. Sandra Barnum at (402) 221-4895

Sincerely,

  
Candace M. Gorton, Chief  
Environmental, Economics, and  
Cultural Resources Section
